Istanbul, Turkey

CLIENT

Renaissance Development

MARKET

Waterfront Planning & Design

LandDesign is leading the planning and design effort associated with creation of a 5 vessel cruise port-of-call and homeport facility in Istanbul. Cruise facilities are a component part of the larger Istanbul Seaport mixed-use complex. LandDesign is currently moving forward into schematic design of all landscape and hardscapes as well as serving as the overall coordinating designer for the project as it moves through Schematic Design and Design Development.
