

The Bridges at Castle Hills

LOCATION
Lewisville, TX

CLIENT
Bright Realty

MARKET
Mixed-Use Development

LandDesign collaborated with 505Design in developing a dynamic outdoor lifestyle retail center for the 2,500-acre master planned community of Castle Hills. Located in one of the fastest growing retail and residential corridors in Dallas/Fort Worth, The Bridges at Castle Hills mixed-use development takes modern interpretations of gothic/castle form and materials, and integrates stone and ornamentation with the landscape experience. Water is used throughout, in both organic and more architectural translations, to weave together the rich exterior experiences. With over 1.2 million commercial square feet, The Bridges will be a unique destination for those who demand exceptional quality and a strong sense of place.
