MARKET
Commercial: Retail and Shopping

Formally a Food Lion location, LandDesign worked as a part of the renovation and remodeling process to update the space to a Whole Foods Market within the Northcross Commons shopping center. Just over 39,000 square feet, LandDesign elevated the building with a contemporary design for an upscale grocer that would act as an anchor for the retail hub. With visibility from the popular intersection of I-77 and Sam Furr Road, LandDesign included distinctive design elements for optimal attraction, while seeking to complement the aesthetic of the surrounding storefronts.
